(By telegraph to the Dispatch.)

New York, December 9.—A plan for the reorganization of the Georgia Central railroad has
been practically agreed upon between the creditors of the road and its directors, and it will be
formally announced in a week or ten days. The
committee of directors appointed to center with
the outside Finance Committee left for their

will involve a scaling down of the interest on the
bonds of the road and a new issue of first-imortgare bonds sufficient to retire the first-mortgare bonds sufficient to retire the first-mortgare to the control of the control of the

The bonds maturing January 1st will be exchanged, dollar for dollar, for the new 5 per cent. bonds, but some of the junior bonds will have to accept 75 per cent. of their par value, the difference to be made up in a bonus of preferred stock. The floating debt of the road, now carried by H. B. Hollins & Co. and the Mutual Life-Insurance Company, will also be taken up by an issue of new first-mortgage bonds.

A careful study of the actual working power and condition of the road has been made, and the reorganization will provide for money enough to put the road in good physical condition and also to bring the fixed charges down to a point casily covered by the net earnings.

It is said that the \$4.200.000 of the road's common stock held by the Richmond Terminal Company is not to be dealt with in any way.

SAVANNAB. GA., December 9.—H. M. Comer. receiver of the Georgia Central railroad. returned from New York to-day. He has approved the general pian of reorganization proposed in New York and regards it as the best possible thing that could happen for the Central railroad. He says there is but one thing that could interfere with the plan, and that is houtile action by the Legislature now in session. Such action, he thinks, would sacrifice the million dollars' worth of junior securities now in the hands of women and children in Georgia.

Complaints About Mails.

There has been considerable complaint lately regarding the tardiness with which the mails are conveyed between the post-office and the depots. The present contractor is a Washington man, and his excuse is that his drivers cannot drive fast without the risk of being fined. After July next Mr. James Sweeney will have the contract, and, as Portmaster Russell says, there will be a head here to punch the drivers up.

There is also complaint of the frequent miscarriage and delay of letters directed to Richmond. Mr. Russell says this is due to the fact that there are ever twenty Richmonds in the United States besides this one.

We All Know That Something Must Soon Be Bone About It.

How to Meet a Great Crisis Among Our People.

Something must be done about it.
There is no doubt about that.
And that something must be done quickly, or it may be too late.
On behalf of our readers we have made some very important investigations in this vicinity, and we have to report that our apprehensions were correct and are substantiated by the facts. We found that there is a greater proportion of our townspeople who are the victims of some form of nervous or chronic disorders, than ever before in our history. It is a fact beyond doubt that these diseases are increasing in our midst at an alarming rate.

Feeling that something must be done at once in the matter, we have been in consultation and communication with several of New York city's most eminent physicians—all specialists in the treatment of nervous and chronic diseases, and we give our readers their opinions and advice as to how to effect a cure in these cases.

Dr. S. M. Reynolds, one of New York city's greatest specialists, says unhesitatingly and emphatically:

"Use Dr. Greene's Nervura, blood and nerve remedy in all such cases. I have never, in a practice of over twenty-five years, recommended a patent medicine. This great remedy, however, cannot be considered under that head, as it is a physician's prescription. I have used it among my patients and in my family, and I unhesitatingly pronounce it the most valuable remedy for the nerves I have ever used."

Dr. Henry Fesser, also one of New York

Dr. Henry Peffer, also one of New York

Dr. Henry Peffer, also one of New York city's great physicians, says:

"Tell your sick people to use Dr. Greene's Nervura blood and and nerve remedy. I have used it in my practice with wonderful results. I have found it a perfect and complete cure for patients in my practice who were suffering from all forms of nervous troubles, sleeplessness, headaches, nervous weakness, and debility."

The great New York physician, Emil Neumer, M. D., physician-in-chief of the New York Lodge and Association Hospital, writes us:

South Carolina's Debt.

[By telegraph to the Dispatch.]

COLUMBIA, S. C., December 9.—Governor Tillman sent a message to the General Assembly today regarding the retunding of the Brown consols (bonds), which fall due July next. He says:
"It is not hard to give reasons and to show what
acts of the State Government in the past and
what men and interests at this time are in combination to prevent the State from placing her
bonds at 4 per cent. interest. Suffice it to say
that it cannot be done, and we must meet the
emergency which has arisen by such action as
will maintain our credit and build it up till
South Carolina can borrow money at as low
a rate as any of her sister States. The State
could have placed her bonds at par in spite of
the errors of the past had her own capitalists
lent their aid. We can place them at 4½ without their help it the General Assembly will provide a sinking fund with which to begin the
gradual annual payment of the debt and mortsage the phosphate-beds—as collateral. The [By telegraph to the Dispatch.]

Silver Mines Closing.

[By telegraph to the Dispatch.]

DENVER, Col., December 9.—Since silver fell to ninety the mines are constantly closing. Almost every day a report is received of some property, large or small, discharging men. Hundreds of mines are not being worked. Many of these are small, and their output cuts no great figure, but the aggregate of persons thrown out of employment is large enough to exercise a material influence on the general condition of trade. Colorado would be on the verge of disaster were it not that its resources other than the precious metals have been developed rapidly during the last six or eight years.

In order to effect a division among the heirs I rill sell by public auction, on the premises, on TUESDAY, DECEMBER 13, 1892, THIS MORNING at 10:30 we offer for sale the grandest lot of HORSES AND MULES ever

TUESDAY, DECEMBER 13, 1892, at 1 o'clock P. M., THAT STRICTLY FIRST-CLASS AND MOST VALUABLE BUSINESS-HOUSE, situated on the southwest corner of Main and Twelfth streets, used partly as an office in connection with the American Hotel and partly as a barber's shop and printing-office, and now and for years past occupied by prompt tenants at good rentals. By reason of the handsome and substantial character of the building and its happy arrangement, together with the exceptionally eligible location, within a square of all the banks and important business-offices, and having all the advantages of light and ventilation, growing out of its situation on a most prominent corner, it has always commanded an exceptionally good class of tenuits at paying prices, and therefore it should attract the attention of those wanting for themselves offices of any kind or a banking-house, for which it is splendidly suited, as well as persons desiring a strictly high-class investment property that can not fail to prove satisfactory.

For further particulars call on or address the auctioneer. Trains arrive Rich the West daily 7:44.
